Vision

We Started Our Business With A Vision To Aid Farmers And Other Clients To Attain Their Utmost Satisfaction With Our Wide Range Of Quality HDPE And PP Products.

Mission

To Provide Wide Range of Quality HDPE & PP Products.

Values

We Believe In Building Healthy & Unbreakable Bond With Respect

OUR PRODUCTS

Our products are widely appreciated by Our clients around India and are used in end application like Grain & Pulses Bags, Food & Spices Bags, Animal Food Bags, Fertilizers & Chemical Bags, Cement & Finish Bags, Powder & Granule Bags, Mineral Bags, Sugar Bags, Tobacco bags.

We started Our business of manufacturing, supplying and exporting of bags and Packaging Material with a Vision to attain utmost client satisfaction. The range of the products consist of HDPE/PP Woven Fabrics, HDPE/PP Woven bags & Multicolour Printed BOPP Laminated PP Woven Sacks/ Bags, and others

01 Pond Liner

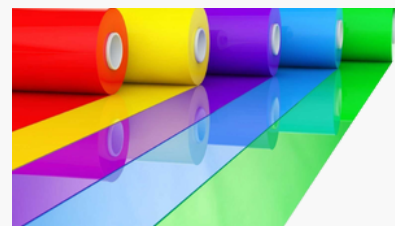

A pond liner is an impermeable geomembrane used for retention of liquids, including the lining of reservoirs, retention basins, hazardous and nonhazardous surface impoundments, garden ponds and artificial streams. The use of Aditya Geo mat as agricultural pond liners has been on the rise due to growing Concern about the need to conserve valuable sources of water. Texel HDPE Reinforced Aditya Geo mat are fully impervious to seepage and leakage. It also prevents any type of contamination from the ground

02 HDPE ROLLS

Empowered with a team of passionate personnel, we are engaged in offering a broad collection of HDPE Fabric. Our offered fabrics are woven using supreme grade material and contemporary techniques under the surveillance of trained professionals.

These are suitable for packing different products in number of industries. We offer these fabrics to our clients in different length, sizes and prints for our clients to choose from.

03 HDPE TARPAULIN

A tarpaulin is a large sheet of strong, flexible, water-resistant and waterproof material, often polyester coated with High-density polyethylene (HDPE). Tarpaulins have multiple uses, including as shelter from the elements, i.e., wind, rain, or sunlight, a ground sheet, for protecting the infield of a Cricket field, and for protecting objects, such as unenclosed road or rail goods carrying vehicles or wood piles.

04 HDPE & PP WOVEN BAGS

We are leading exporters and suppliers of all types of HDPE / PP woven sacks. We have major range of woven sacks all customisable according to the quality requirements for packing of sugar, Cement, wire, nails, screws, Lime powder etc.

These bags are strong and protect products from water and moisture. Bags are available as per size and quantity. Also available in multi-colors, printed and film bags

05 HDPE TARPAULIN ROLLS

We have different sizes in roll and GSM as per customer requirements with multiple color options.

500 Micron ISI pond liner fabric roll is our one of the best product according to customer feedback analysis.

06 HDPE TARPAULIN CUTS

HDPE tarpaulin is a durable and versatile synthetic fabric widely used for various outdoor applications, including covering and protecting objects from rain, sunlight, and other environmental elements. When cutting HDPE tarpaulin, precise measurements and sharp tools are essential to ensure clean and accurate cuts. These cuts can be made to create customized tarpaulin covers, liners, or any other form that suits specific needs

07 KRAFT PAPER AND ROLLS

Kraft paper is a type of paper made from wood pulp, primarily derived from the kraft process. It is known for its strength and durability, making it suitable for a wide range of applications. Kraft paper is characterized by its natural brown color and coarse texture, which gives it a rustic and organic appearance. It is commonly used in packaging materials such as bags, envelopes, and wrapping paper due to its high tear resistance and ability to withstand heavy loads. Kraft paper is also utilized in various industrial sectors, including construction, where it serves as a protective barrier during painting, as well as in crafts and DIY projects due to its versatility and easy handling. Additionally, its eco-friendly nature, as it is made from renewable resources, has contributed to its popularity as a sustainable packaging option.
